DETAILED ACTION

This is in reference to response received 06 July 2006. Claims 40 and 42 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on 06 July 2006. Claims 32-39, 41 and 43 are pending for examination. Upon review of the amended claims and newly added claims 42 - 44 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons:

In the amendment received 21 March 2006, applicant has cancelled all previously pending claims 1-31 and added new claims 32-43, of which applicant elected without traverse claims 32-39, 41 and 43. Upon review of pending claims examiner has determined that the pending claims are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons:

Newly submitted pending claims are non elected claims in the response received 08 September 2005 in which applicant had elected claims 1-18 without traverse. An office action was mailed to the applicant on then pending elected claims 1-18 on 21 November 2005.

Therefore the newly submitted pending claims are distinct and divergent from the earlier claimed inventions and would require a new, divergent and different search. Such change in the inventions amount to a " Shift claiming another invention after an

action given on the claimed subject matter and are therefore subject to " Election by Original Presentation" as analyzed above.

Kindly refer to the following MPEP excerpts for guidelines:

819 Office Generally Does Not Permit Shift:

The general policy of the Office is not to permit the applicant to shift to claiming another invention after an election is once made and action given on the elected subject matter. **Note that the applicant cannot, as a matter of right, file a request for continued examination (RCE) to obtain continued examination on the basis of claims that are independent and distinct from the claims previously claimed and examined (i.e., applicant cannot switch inventions by way of an RCE as a matter of right).** When claims are presented which the examiner holds are drawn to an invention other than the one elected, he or she should treat the claims as outlined in **MPEP § 821.03**.

Where the inventions are distinct and of such a nature that the Office compels restriction, an election is not waived even though the examiner gives action upon the patentability of the claims to the nonelected invention. Ex p a n e Loewenbach, 1904 C.D. 170, 110 O.G. 857 (Comm'r Pat. 1904) and In re Waugh, 135 F.2d 627, 57 USPQ 371 (CCPA 1943).

821.03 Claims for Different Invention Added After an Office Action

Claims added by amendment following action by the examiner, **MPEP § 818.01, § 818.02(a)**, to an invention other than previously claimed, should be treated as indicated by **37 CFR 1.145**.

37 CFR 1.145 Subsequent presentation of claims for different invention.

If, after an office action on an application, the applicant presents claims directed to an invention distinct from and independent of the invention previously claimed, the applicant will be required to restrict the claims to the invention previously claimed if the amendment is entered, subject to reconsideration and review as provided in §§ **1.143 and 1.144**

Therefore, newly submitted claims are directed to an invention that is independent or distinct from the invention originally claimed for the reasons given above.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, pending claims are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

The amendment presenting only claims drawn to a nonelected invention is non-responsive (MPEP § 821.03). The currently newly added pending claims are not readable on the elected invention because they are subject to " Election by Original Presentation". as analyzed above.

Since the above-mentioned amendment appears to be a bona fide attempt to reply, applicant is given a TIME PERIOD of ONE (1) MONTH or THIRTY (30) DAYS, whichever is longer, from the mailing date of this notice within which to supply the omission or correction in order to avoid abandonment. **EXTENSIONS OF THIS TIME PERIOD UNDER 37 CFR 1.136(a) ARE AVAILABLE.**

Conclusion

Applicant is required under 37 CFR '1.111 (c) to consider the references fully when responding to this office action.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
